

TRACHEOTEX® SHIRT

- ▶ Turtleneck to cover and protect the tracheostoma of laryngectomized and tracheostomized patients
- ▶ Soft cotton jersey
- ▶ High degree of air permeability – no heavy sweating
- ▶ Pleasantly light – does not show up under clothing
- ▶ Filters, humidifies and warms the inspired air
- ▶ The standing collar is elastic throughout and therefore extremely stretchy. This provides a comfortable fit and adjusts to different neck sizes.
- ▶ The special design makes a separate fastener system unnecessary (unlike conventional protective turtlenecks)
- ▶ Alternatively the TRACHEOTEX® Shirt is also available made of knitted fabric: TRACHEOTEX® ROLLI, REF 43300 (cf separate data sheet)
- ▶ Many colour variants (cf colour sample card – available as extra brochure)

	Keep away from sunlight
	Keep dry
	Single patient use
	Consult instructions for use
	CE marking
	Hand wash
	Do not dry in the drum dryer
